

# SAMI-AEC Raqeeb

## Shaping the Future of Construction Site Safety in Saudi Arabia

Under Vision 2030, the Kingdom is driven towards creating a vibrant and thriving society, with a special focus on enhancing home ownership and building future cities. Now, it is critical for KSA's infrastructure leaders to nurture a secure and productive environment on construction sites. With SAMI-AEC Raqeeb, construction leaders can holistically scale labor efficiency and on-site worker safety, while maximizing productivity.

## Core Objectives of KSA's Infrastructure Development

## Proactively Address Modern Challenges in Construction with SAMI-AEC Raqeeb

- Use artificial intelligence to resolve complexities in workforce management
- Embed sensors to gain a 360° view of the site while monitoring assets and workers
- Incorporate video analytics to track worker activities and raise productivity levels

## Striving for Excellence in Every Facet of the Construction Cycle\*

## Redefining Saudi Arabia's Construction Sites with Advanced Site Safety Solutions

Key Features	Benefits
Real-time monitoring of the workers	Ensures workers safety
Robust SOS Features	Reduces accidents
Automate safety efforts	Maximizes ROI
Track body stress levels & weather parameters	Maximizes ROI
